HOTELS®

Barceló LaBobadilla  
GRAN LUJO

# History

More than 25 years ago, Dr. Egli, a successful Swiss businessman and lawyer, imagined an idyllic place where he could make his dream of living in the heart of Andalusia come true.

And so the magnificent 350 hectare complex was born, amidst forests of oak, holm oak, almond and olive trees, between the cities of Malaga and Granada. A wonderful place where you are lulled to sleep by the sounds of nature and gently awakened in the morning by **birdsong**.

A place to feel the spirit of Andalusian poetry and a slower, more leisurely way of life... that's how **La Bobadilla** was created. An enclave to share with friends, to enjoy life.

# Surroundings and architecture

Located in an estate of **350 hectares** of oak, holm oak, olive and almond trees in the heart of Andalusia•

Designed by Jesús del Valle and decorated by Begoña Zunzunegui, of **Bécara**•

The architecture follows the lines of old Andalusian palaces, with particular emphasis on **Arab architecture**•

Barceló La Bobadilla represents a paradigm in **sustainable luxury**, with 100% Spanish energy provided by olive stones from its own groves.

The **biomass plant** at the hotel generates energy for heating the rooms and water of the resort.
